What can we offer you?

The centre is situated near the town's main shopping area. The main road links are easily accessible and as can be seen from the map, the bus and railway stations are a short walk away.

The church is a central part of our conference centre and is our main auditorium seating up to 400 people.

As well as cushioned pews, it is furnished with comfortable chairs which can be set to suit your needs.

The lift allows access for the disabled and there is a P.A. system with an Induction Loop for hearing aid users. The church has a sound system and powerpoint facilities.

The facilities downstairs include a large Foyer which can be set as an exhibition area and 4 rooms of varying sizes to seat groups of 4-40.

At the rear of the building we have a further two halls. The smaller hall is a bright room seating a maximum of 60.

The larger of the halls has a seating capacity of 200 and is often used as our dining room. There is a stage which can be utilised for concerts or conferences.

Kirsty Robertson, our catering manager runs our fully equipped kitchen which supplies our coffee bar with a large and varied lunch menu.

Kirsty is always happy to arrange catering to suit your conference needs and we can supply menus to help you decide.

All our catering staff have their food hygiene certificates and our premises are inspected by environmental health inspectors.

Tea, Coffee and Biscuits
Soup and Sandwiches
